Summary of the Test results

Our ecommerce platform's features, such as user registration, product administration, payment processing, and configuration settings, were all tested. The examinations were carried out as per the test strategy, and the outcomes are described below.

- **Total Test Cases:** 45
- **Passed:** 34
- **Failed:** 11

Detailed Execution

1. User Registration

Test Case	Result	Remarks	Bugs
Verify that a new user can successfully register.	Pass	User registration is functioning as expected.	None

2. User Login

Test Case	Result	Remarks	Bugs
Validate that a registered user can log in with valid credentials.	Pass	Login process is smooth, and authentication is correct.	None

3. Browsing Products

Test Case	Result	Remarks	Bugs
Ensure all products are displayed when a user browses.	Pass	All products are visible without any issues.	None

4. Adding to Cart

Test Case	Result	Remarks	Bugs
Check if products can be successfully added to the cart.	Pass	Products are added to the cart correctly, with accurate quantities.	None

5. Checkout and Payment

Test Case	Result	Remarks	Bugs
Validate the checkout process and payment functionality.	Fail	Checkout and payment returned an error during processing.	Payment failure issue detected (Bug ID: 01)

6. Order Management

Test Case	Result	Remarks	Bugs
Ensure users can view and manage their orders.	Pass	Orders are managed correctly; order history is accurate.	None

7. Product Management (Admin)

Test Case	Result	Remarks	Bugs
Check if the admin can add or update product details.	Pass	Admin functionality for product management works as intended.	None

8. Inventory Management (Admin)

Test Case	Result	Remarks	Bugs
Validate that the admin can manage inventory levels.	Pass	Inventory updates are reflected in real-time.	None

9. Email Notifications

Test Case	Result	Remarks	Bugs
Ensure email notifications are sent after successful transactions.	Fail	Email notifications not sent after completing the transaction.	Notification system failure (Bug ID: 02).

Screenshots for Failed Test Cases

This report Include screenshots or logs for any failed test cases. These screenshots offer visual proof of the problems that arose during the first run of the test.

Defect Report

Bug ID	Description	Severity	Steps to Reproduce	Screenshots
01	Payment error during checkout.	High	Add items to the cart, proceed to checkout, and attempt payment.	Figure 07
02	Payment processing fails at the final step.	High	Proceed to payment after checkout and submit.	Figure 07
03	Registration confirmation email not received	Medium	Register a new user and check the inbox.	Figure 04

Conclusion

The testing process revealed critical issues in the payment gateway and email notification system. These issues have been documented with detailed reproduction steps and are ready for resolution. Once these issues are fixed, further testing will be required to ensure that the system functions correctly and meets all the specified requirements.
